Subject: [csrcexec-1375] CSRC Basis of Bearings Statment

All,

As we discussed during the teleconference, our BOB statement currently on the CSRC website has an incorrect acronym being;

Continuous Global Positioning Stations (CGPS)

This should be;

Continuous Global Positioning Systems (CGPS) Stations

I suggest that we correct this problem and use the following for the CSRC website BOB statement:

The Basis of Bearings for this Survey is the California Coordinate System, Zone _____
_NAD 83 (Epoch _____)

as determined locally by a line between Continuous Global Positioning Systems (CGPS) Stations
and/or Continuous Operating

Reference Stations (CORS) Sta. Name and Sta. Name being Bearing as derived from geodetic
values published by the

California Spatial Reference Center (CSRC) and/or National Geodetic Survey (NGS),
respectively.

I motion that we vote to accept the above statement. Please respond with a YES, NO or OPPOSE.

Thanks,

Art Andrew
